Notes:

- (1) Value of purchases of goods for sale is adjusted by changes in stocks.
- (2) Value added is a measure of contribution to the Gross Domestic Product of Hong Kong.
- (3) For the insurance and banking industries, owing to their special feature of business operations, gross surplus and value added are not compiled.
- (4) For the financing (except banking) industry, value added is not compiled for investment and holding companies owing to their special features of business operations. Hence, the figure of value added for this industry does not cover investment and holding companies.
- (5) There may be a slight discrepancy between the sum of individual items and the total owing to rounding.
