- Notes:
- (1) Figures do not include special schools.
  - (2) Figures refer to the position as at September 2006. They are provisional and are subject to revisions.
  - (3) Caput does not apply to primary schools.
  - (4) International schools include English Schools Foundation schools.
  - (5) Figures on operating classes involve a small number of combined classes, i.e. classes operated in the same classroom comprising students of different grades. When counting the total number of classes in a school, combined class is treated as one class. When counting the number of classes broken down by grade, combined class is split into different classes in proportion to the number of students from different grades and the number is rounded to the nearest integer. Accordingly, figures on operating classes for individual grades may not add up to the total number of classes in schools.
