- Notes:
1. Four selected component industries, which carry relatively large weights and are major components of the relevant industry groups, are also included in the above table. For easy reading, the figures of these four component industries are in italic style.
 2. The Hong Kong Standard Industrial Classification (HSIC) is used to form the industry groups and selected component industries presented in the above table. For the coverage of the industry groups and component industries in terms of HSIC codes, please refer to the “Quarterly Index of Industrial Production, 2nd Quarter 2008” report.
