

Table title: Domestic Export Statistics Classified by Industrial Origin for the First Quarter of 2009

The value of domestic exports classified to the food products industry in the first quarter of 2009 was HK\$289.9 million.

The value of domestic exports classified to the food products industry in the first quarter of 2008 was HK\$354.5 million.

Value change of domestic exports classified to the food products industry was HK\$-64.6 million.

Percentage change of domestic exports classified to the food products industry was -18.2%.

The value of domestic exports classified to the beverages industry in the first quarter of 2009 was HK\$62.8 million.

The value of domestic exports classified to the beverages industry in the first quarter of 2008 was HK\$84.2 million.

Value change of domestic exports classified to the beverages industry was HK\$-21.4 million.

Percentage change of domestic exports classified to the beverages industry was -25.4%.

The value of domestic exports classified to the tobacco products industry in the first quarter of 2009 was HK\$506.7 million.

The value of domestic exports classified to the tobacco products industry in the first quarter of 2008 was HK\$459.5 million.

Value change of domestic exports classified to the tobacco products industry was HK\$+47.3 million.

Percentage change of domestic exports classified to the tobacco products industry was +10.3%.

The value of domestic exports classified to the textiles industry in the first quarter of 2009 was HK\$485.6 million.

The value of domestic exports classified to the textiles industry in the first quarter of 2008 was HK\$730.5 million.

Value change of domestic exports classified to the textiles industry was HK\$-244.8 million.

Percentage change of domestic exports classified to the textiles industry was -33.5%.

The value of domestic exports classified to the wearing apparel industry in the first quarter of 2009 was HK\$1500.7 million.

The value of domestic exports classified to the wearing apparel industry in the first quarter of 2008 was HK\$5814.2 million.

Value change of domestic exports classified to the wearing apparel industry was HK\$-4313.5 million.

Percentage change of domestic exports classified to the wearing apparel industry was -74.2%.

The value of domestic exports classified to the leather and related products industry in the first quarter of 2009 was HK\$9.5 million.

The value of domestic exports classified to the leather and related products industry in the first quarter of 2008 was HK\$13.0 million.

Value change of domestic exports classified to the leather and related products industry was HK\$-3.6 million.  
Percentage change of domestic exports classified to the leather and related products industry was -27.3%.

The value of domestic exports classified to the wood and products of wood and cork, articles of straw and plaiting materials, and furniture (except toys) industry in the first quarter of 2009 was HK\$33.9 million.  
The value of domestic exports classified to the wood and products of wood and cork, articles of straw and plaiting materials, and furniture (except toys) industry in the first quarter of 2008 was HK\$13.4 million.  
Value change of domestic exports classified to the wood and products of wood and cork, articles of straw and plaiting materials, and furniture (except toys) industry was HK\$+20.5 million.  
Percentage change of domestic exports classified to the wood and products of wood and cork, articles of straw and plaiting materials, and furniture (except toys) industry was +152.9%.

The value of domestic exports classified to the paper and paper products, and printing and reproduction of recorded media industry in the first quarter of 2009 was HK\$735.9 million.  
The value of domestic exports classified to the paper and paper products, and printing and reproduction of recorded media industry in the first quarter of 2008 was HK\$1063.2 million.  
Value change of domestic exports classified to the paper and paper products, and printing and reproduction of recorded media industry was HK\$-327.3 million.  
Percentage change of domestic exports classified to the paper and paper products, and printing and reproduction of recorded media industry was -30.8%.

The value of domestic exports classified to the non-metallic mineral products industry in the first quarter of 2009 was HK\$168.9 million.  
The value of domestic exports classified to the non-metallic mineral products industry in the first quarter of 2008 was HK\$161.5 million.  
Value change of domestic exports classified to the non-metallic mineral products industry was HK\$+7.4 million.  
Percentage change of domestic exports classified to the non-metallic mineral products industry was +4.6%.

The value of domestic exports classified to the chemicals and chemical products industry in the first quarter of 2009 was HK\$1366.7 million.  
The value of domestic exports classified to the chemicals and chemical products industry in the first quarter of 2008 was HK\$2084.3 million.  
Value change of domestic exports classified to the chemicals and chemical products industry was HK\$-717.6 million.  
Percentage change of domestic exports classified to the chemicals and chemical products industry was -34.4%.

The value of domestic exports classified to the pharmaceuticals, medicinal chemical and botanical products industry in the first quarter of 2009 was HK\$436.7 million.  
The value of domestic exports classified to the pharmaceuticals, medicinal chemical and botanical products industry in the first quarter of 2008 was HK\$467.3 million.

Value change of domestic exports classified to the pharmaceuticals, medicinal chemical and botanical products industry was HK\$-30.7 million.

Percentage change of domestic exports classified to the pharmaceuticals, medicinal chemical and botanical products industry was -6.6%.

The value of domestic exports classified to the rubber and plastics products (except furniture, toys, sports goods and stationery) industry in the first quarter of 2009 was HK\$212.7 million.

The value of domestic exports classified to the rubber and plastics products (except furniture, toys, sports goods and stationery) industry in the first quarter of 2008 was HK\$273.6 million.

Value change of domestic exports classified to the rubber and plastics products (except furniture, toys, sports goods and stationery) industry was HK\$-60.9 million.

Percentage change of domestic exports classified to the rubber and plastics products (except furniture, toys, sports goods and stationery) industry was -22.3%.

The value of domestic exports classified to the basic metals industry in the first quarter of 2009 was HK\$831.9 million.

The value of domestic exports classified to the basic metals industry in the first quarter of 2008 was HK\$2146.8 million.

Value change of domestic exports classified to the basic metals industry was HK\$-1314.9 million.

Percentage change of domestic exports classified to the basic metals industry was -61.2%.

The value of domestic exports classified to the fabricated metal products (except machinery and equipment) industry in the first quarter of 2009 was HK\$122.9 million.

The value of domestic exports classified to the fabricated metal products (except machinery and equipment) industry in the first quarter of 2008 was HK\$177.0 million.

Value change of domestic exports classified to the fabricated metal products (except machinery and equipment) industry was HK\$-54.1 million.

Percentage change of domestic exports classified to the fabricated metal products (except machinery and equipment) industry was -30.6%.

The value of domestic exports classified to the computer, electronic and optical products industry in the first quarter of 2009 was HK\$2949.1 million.

The value of domestic exports classified to the computer, electronic and optical products industry in the first quarter of 2008 was HK\$4041.2 million.

Value change of domestic exports classified to the computer, electronic and optical products industry was HK\$-1092.1 million.

Percentage change of domestic exports classified to the computer, electronic and optical products industry was -27.0%.

The value of domestic exports classified to the electrical equipment industry in the first quarter of 2009 was HK\$408.3 million.

The value of domestic exports classified to the electrical equipment industry in the first quarter of 2008 was HK\$517.5 million.

Value change of domestic exports classified to the electrical equipment industry was HK\$-109.1 million.

Percentage change of domestic exports classified to the electrical equipment industry was -21.1%.

The value of domestic exports classified to the machinery and equipment n.e.c. industry in the first quarter of 2009 was HK\$295.1 million.

The value of domestic exports classified to the machinery and equipment n.e.c. industry in the first quarter of 2008 was HK\$715.3 million.

Value change of domestic exports classified to the machinery and equipment n.e.c. industry was HK\$-420.2 million.

Percentage change of domestic exports classified to the machinery and equipment n.e.c. industry was -58.7%.

The value of domestic exports classified to other manufacturing industries in the first quarter of 2009 was HK\$1585.9 million.

The value of domestic exports classified to other manufacturing industries in the first quarter of 2008 was HK\$2470.1 million.

Value change of domestic exports classified to other manufacturing industries was HK\$-884.3 million.

Percentage change of domestic exports classified to other manufacturing industries was -35.8%.

Total value of domestic exports in the first quarter of 2009 was HK\$ 12003.2 million.

Total value of domestic exports in the first quarter of 2008 was HK\$ 21587.0 million.

Value change of total domestic exports was HK\$ -9583.8 million.

Percentage change of total domestic exports was -44.4%.

Note 1 : The statistics in the above table are derived by re-grouping the merchandise domestic export items (except gold and specie) under the Standard International Trade Classification, Revision 3 according to the industries in which these items are normally produced. Owing to the change in trade classification, the above statistics may not be strictly comparable with those published for earlier years.

Note 2 : The above statistics are compiled based on the Hong Kong Standard Industrial Classification Version 2.0.

Note 3 : There may be a slight discrepancy between the sum of individual items and the total as shown in the table owing to rounding. The percentage changes are calculated from unrounded figures.
