

Annuity Levels

For every HK\$ 1 million of the property value, the monthly annuity payment levels for borrowers with entry age at 60 or 70 are as follows:

Term of Annuity Payment	Amount of Monthly Annuity Payment (HK\$)			
	Singleton		Two Persons	
	60 years old	70 years old	60 years old	70 years old
10 years	3,700	5,100	3,300	4,600
15 years	2,800	3,800	2,500	3,500
20 years	2,400	3,300	2,100	3,000
Life annuity	2,000	3,100	1,800	2,800

Example:

Suppose a 70-year-old couple have a property of HK\$2.5 million and they choose a life-annuity plan, they will receive a monthly annuity payment of HK\$7,000. If the applicant is a 70-year-old singleton, he will receive a monthly annuity payment of HK\$7,750.

Details of Lump-Sum Loan

Purposes of the loan

1. To fully repay the existing mortgage of the property*
2. To pay medical expenses
3. To pay for major property repairs

Loan limit

Maximum loan amount: 50% of the residual actuarial value of the reverse mortgage

Minimum loan amount: 15% of the residual actuarial value of the reverse mortgage or HK\$100,000, whichever is higher

If the residual actuarial value of the reverse mortgage is HK\$1 million, the borrower can draw a lump-sum loan of up to HK\$500,000 and not less than HK\$150,000.

** The borrower draws a lump-sum loan to fully repay his existing mortgage, in order to take part in the reverse mortgage, and receives a lower amount of monthly annuity.*

Key Product Features
