

## Implementation of the latest international statistical standards in GDP

Tuesday, 11th September 2012

Table 1 : Comparison of Gross Domestic Product (GDP) at current market prices before and after revision

GDP before revision for the year 2001 was HK\$ 1299218 million.

GDP after revision for the year 2001 was HK\$ 1321142 million.

The revision of GDP for the year 2001 was HK\$ 21924 million or 1.7%.

GDP before revision for the year 2002 was HK\$ 1277314 million.

GDP after revision for the year 2002 was HK\$ 1297341 million.

The revision of GDP for the year 2002 was HK\$ 20027 million or 1.6%.

GDP before revision for the year 2003 was HK\$ 1234761 million.

GDP after revision for the year 2003 was HK\$ 1256669 million.

The revision of GDP for the year 2003 was HK\$ 21908 million or 1.8%.

GDP before revision for the year 2004 was HK\$ 1291923 million.

GDP after revision for the year 2004 was HK\$ 1316949 million.

The revision of GDP for the year 2004 was HK\$ 25026 million or 1.9%.

GDP before revision for the year 2005 was HK\$ 1382590 million.

GDP after revision for the year 2005 was HK\$ 1412125 million.

The revision of GDP for the year 2005 was HK\$ 29535 million or 2.1%.

GDP before revision for the year 2006 was HK\$ 1475357 million.

GDP after revision for the year 2006 was HK\$ 1503351 million.

The revision of GDP for the year 2006 was HK\$ 27994 million or 1.9%.

GDP before revision for the year 2007 was HK\$ 1615574 million.

GDP after revision for the year 2007 was HK\$ 1650756 million.

The revision of GDP for the year 2007 was HK\$ 35182 million or 2.2%.

GDP before revision for the year 2008 was HK\$ 1677011 million.

GDP after revision for the year 2008 was HK\$ 1707487 million.

The revision of GDP for the year 2008 was HK\$ 30476 million or 1.8%.

GDP before revision for the year 2009 was HK\$ 1622516 million.

GDP after revision for the year 2009 was HK\$ 1659245 million.

The revision of GDP for the year 2009 was HK\$ 36729 million or 2.3%.

GDP before revision for the year 2010 was HK\$ 1741564 million.

GDP after revision for the year 2010 was HK\$ 1777720 million.

The revision of GDP for the year 2010 was HK\$ 36156 million or 2.1%.

GDP before revision for the year 2011 was HK\$ 1896695 million.

GDP after revision for the year 2011 was HK\$ 1935195 million.

The revision of GDP for the year 2011 was HK\$ 38500 million or 2.0%.

GDP before revision for the first quarter of 2012 was HK\$ 470522 million.

GDP after revision for the first quarter of 2012 was HK\$ 482778 million.

The revision of GDP for the first quarter of 2012 was HK\$ 12256 million or 2.6%.

GDP before revision for the second quarter of 2012 was HK\$ 463697 million.

GDP after revision for the second quarter of 2012 was HK\$ 474690 million.

The revision of GDP for the second quarter of 2012 was HK\$ 10993 million or 2.4%.

## Implementation of the latest international statistical standards in GDP

Tuesday, 11th September 2012

Table 2 : Comparison of Gross Domestic Product (GDP) year-on-year changes before and after revision

The year-on-year percentage change of GDP in nominal terms before revision for the year 2001 was -1.4%.

The year-on-year percentage change of GDP in nominal terms after revision for the year 2001 was -1.2%, representing an upward revision of 0.2 percentage point.

The year-on-year percentage change of GDP in real terms before revision for the year 2001 was 0.5%.

The year-on-year percentage change of GDP in real terms after revision for the year 2001 was 0.6%, representing an upward revision of 0.1 percentage point.

The year-on-year percentage change of GDP in nominal terms before revision for the year 2002 was -1.7%.

The year-on-year percentage change of GDP in nominal terms after revision for the year 2002 was -1.8%, representing a downward revision of 0.1 percentage point.

The year-on-year percentage change of GDP in real terms before revision for the year 2002 was 1.8%.

The year-on-year percentage change of GDP in real terms after revision for the year 2002 was 1.7%, representing a downward revision of 0.1 percentage point.

The year-on-year percentage change of GDP in nominal terms before revision for the year 2003 was -3.3%.

The year-on-year percentage change in of GDP nominal terms after revision for the year 2003 was -3.1%, representing an upward revision of 0.2 percentage point.

The year-on-year percentage change of GDP in real terms before revision for the year 2003 was 3.0%.

The year-on-year percentage change of GDP in real terms after revision for the year 2003 was 3.1%, representing an upward revision of 0.1 percentage point.

The year-on-year percentage change of GDP in nominal terms before revision for the year 2004 was 4.6%.

The year-on-year percentage change of GDP in nominal terms after revision for the year 2004 was 4.8%, representing an upward revision of 0.2 percentage point.

The year-on-year percentage change of GDP in real terms before revision for the year 2004 was 8.5%.

The year-on-year percentage change of GDP in real terms after revision for the year 2004 was 8.7%, representing an upward revision of 0.2 percentage point.

The year-on-year percentage change of GDP in nominal terms before revision for the year 2005 was 7.0%.

The year-on-year percentage change of GDP in nominal terms after revision for the year 2005 was 7.2%, representing an upward revision of 0.2 percentage point.

The year-on-year percentage change of GDP in real terms before revision for the year 2005 was 7.1%.

The year-on-year percentage change of GDP in real terms after revision for the year 2005 was 7.4%, representing an upward revision of 0.3 percentage point.

The year-on-year percentage change of GDP in nominal terms before revision for the year 2006 was 6.7%.

The year-on-year percentage change of GDP in nominal terms after revision for the year 2006 was 6.5%, representing a downward revision of 0.2 percentage point.

The year-on-year percentage change of GDP in real terms before revision for the year 2006 was 7.0%.

The year-on-year percentage change of GDP in real terms after revision for the year 2006 was 7.0%, representing an upward or downward revision of less than 0.05 percentage point.

The year-on-year percentage change of GDP in nominal terms before revision for the year 2007 was 9.5%.

The year-on-year percentage change of GDP in nominal terms after revision for the year 2007 was 9.8%, representing an upward revision of 0.3 percentage point.

The year-on-year percentage change of GDP in real terms before revision for the year 2007 was 6.4%.

The year-on-year percentage change of GDP in real terms after revision for the year 2007 was 6.5%, representing an upward revision of 0.1 percentage point.

The year-on-year percentage change of GDP in nominal terms before revision for the year 2008 was 3.8%.

The year-on-year percentage change of GDP in nominal terms after revision for the year 2008 was 3.4%, representing a downward revision of 0.4 percentage point.

The year-on-year percentage change of GDP in real terms before revision for the year 2008 was 2.3%.

The year-on-year percentage change of GDP in real terms after revision for the year 2008 was 2.1%, representing a downward revision of 0.2 percentage point.

The year-on-year percentage change of GDP in nominal terms before revision for the year 2009 was -3.2%.

The year-on-year percentage change of GDP in nominal terms after revision for the year 2009 was -2.8%, representing an upward revision of 0.4 percentage point.

The year-on-year percentage change of GDP in real terms before revision for the year 2009 was -2.6%.

The year-on-year percentage change of GDP in real terms after revision for the year 2009 was -2.5%, representing an upward revision of 0.1 percentage point.

The year-on-year percentage change of GDP in nominal terms before revision for the year 2010 was 7.3%.

The year-on-year percentage change of GDP in nominal terms after revision for the year 2010 was 7.1%, representing a downward revision of 0.2 percentage point.

The year-on-year percentage change of GDP in real terms before revision for the year 2010 was 7.1%.

The year-on-year percentage change of GDP in real terms after revision for the year 2010 was 6.8%, representing a downward revision of 0.3 percentage point.

The year-on-year percentage change of GDP in nominal terms before revision for the year 2011 was 8.9%.

The year-on-year percentage change of GDP in nominal terms after revision for the year 2011 was 8.9%.

representing an upward or downward revision of less than 0.05 percentage point.

The year-on-year percentage change of GDP in real terms before revision for the year 2011 was 5.0%.

The year-on-year percentage change of GDP in real terms after revision for the year 2011 was 4.9%, representing a downward revision of 0.1 percentage point

The year-on-year percentage change of GDP in nominal terms before revision for the first quarter of 2012 was 4.2%.

The year-on-year percentage change of GDP in nominal terms after revision for the first quarter of 2012 was 4.2%, representing an upward or downward revision of less than 0.05 percentage point.

The year-on-year percentage change of GDP in real terms before revision for the first quarter of 2012 was 0.7%.

The year-on-year percentage change of GDP in real terms after revision for the first quarter of 2012 was 0.7%, representing an upward or downward revision of less than 0.05 percentage point.

The year-on-year percentage change of GDP in nominal terms before revision for the second quarter of 2012 was 3.6%.

The year-on-year percentage change of GDP in nominal terms after revision for the second quarter of 2012 was 3.9%, representing an upward revision of 0.3 percentage point.

The year-on-year percentage change of GDP in real terms before revision for the second quarter of 2012 was 1.1%.

The year-on-year percentage change of GDP in real terms after revision for the second quarter of 2012 was 1.2%, representing an upward revision of 0.1 percentage point.
