

**Government expenditure in the past three years
on major initiatives to increase/enhance cycling facilities
and conduct publicity/education activities on cycling safety**

Department	Description of major initiatives	Expenditure (\$'000)		
		2010	2011	2012 (as at end-Oct)
Transport Department and Highways Department	Enhancement of bicycle parking facilities (an increase of about 2,000 bicycle parking spaces in 3 years)	913	605	339
	Reprovisioning of speed reducing bollards (reprovisioning of speed reducing bollards at about 500 locations in 3 years)	11	264	221
	General improvement to cycle track facilities such as traffic signs and road markings	166	697	907
	Publicity/education activities on cycling safety (internet-based Cycling Information Centre, and education and publicity videos)	126	358	828
Civil Engineering and Development Department	Project fee	76,860	100,590	81,490
Hong Kong Police Force	Organisation of publicity and education activities on cycling safety	203	445	215
Road Safety Council	Organisation of publicity and education activities on cycling safety	202	550	988

Remark: The Leisure and Cultural Services Department also provides cycling facilities in some of its projects. Since such projects involve several other facilities, the Department is unable to provide the expenditure breakdown on cycling facilities alone.
