

MAXIMUM DEMAND TARIFF

Tariff charges for the supply will, subject to payment in any month of the demand charge and the unit charge in respect of a minimum of 100 kVA of chargeable demand, be calculated as follows:

	<u>Commercial & Industrial</u>	
	<u>Low Voltage</u>	<u>High Voltage</u>
(a) Demand Charge (\$/kVA in the month)		
For each of the first 400 kVA of maximum demand in the month	48.3	47.3
For each of the next additional kVA of maximum demand in the month	47.3	46.3
(b) Energy Charge (cents/unit) (Monthly consumption)		
For each of the first 200 units supplied per month per kVA of maximum demand in the month (subject to a minimum of 100 kVA)		
Basic Charge	86.8	86.2
FCA	40.2	40.2
Net Rate	127.0	126.4
For each additional unit supplied in the month		
Basic Charge	82.2	81.6
FCA	40.2	40.2
Net Rate	122.4	121.8

For any period less than a month at the beginning or end of supply, the demand charge will be applied and calculated on a pro-rata daily basis. The total units will be charged as if consumed in one month.

“Month” means a period of approximately one month between one normal meter-reading and the next.

“Unit” means kilowatt hour.

Payment of any bill received after the due date will be subject to a surcharge of 5%.

Fuel Clause Adjustment (FCA)

A corresponding fuel clause adjustment will be made when the composite fuel price is above or below \$700 per 44 gigajoules.

MAXIMUM DEMAND TARIFF

Tariff charges for the supply will, subject to payment in any month of the demand charge and the unit charge in respect of a minimum of 100 kVA of chargeable demand, be calculated as follows:

	<u>Commercial & Industrial</u>	
	<u>Low Voltage</u>	<u>High Voltage</u>
(a) Demand Charge (\$/kVA in the month)		
For each of the first 400 kVA of maximum demand in the month	47.0	46.0
For each of the next additional kVA of maximum demand in the month	46.0	45.0
(b) Energy Charge (cents/unit) (Monthly consumption)		
For each of the first 200 units supplied per month per kVA of maximum demand in the month (subject to a minimum of 100 kVA)		
Basic Charge	86.4	85.8
FCA	37.0	37.0
Net Rate	123.4	122.8
For each additional unit supplied in the month		
Basic Charge	81.9	81.3
FCA	37.0	37.0
Net Rate	118.9	118.3

For any period less than a month at the beginning or end of supply, the demand charge will be applied and calculated on a pro-rata daily basis. The total units will be charged as if consumed in one month.

“Month” means a period of approximately one month between one normal meter-reading and the next.

“Unit” means kilowatt hour.

“FCA” means Fuel Clause Adjustment.

Payment of any bill received after the due date will be subject to a surcharge of 5%.

Fuel Clause Adjustment (FCA)

A corresponding fuel clause adjustment will be made when the composite fuel price is above or below \$700 per 44 gigajoules.

Effective Date: 1st January 2012

MAXIMUM DEMAND TARIFF

Tariff charges for the supply will, subject to payment in any month of the demand charge and the unit charge in respect of a minimum of 100 kVA of chargeable demand, be calculated as follows:

(a) Demand Charge (\$/kVA in the month)

	<u>Commercial & Industrial</u>	
	Low Voltage	High Voltage
For each of the first 400 kVA of maximum demand in the month	44.2	43.2
For each of the next additional kVA of maximum demand in the month	43.2	42.2

(b) Energy Charge (cents/unit)
(Monthly consumption)

For each of the first 200 units supplied per month per kVA of maximum demand (subject to a minimum of 100 kVA) in the month

	<u>Commercial & Industrial</u>	
	Low Voltage	High Voltage
Basic Charge	86.1	85.5
FCA	30.2	30.2
Net Rate	116.3	115.7

For each additional unit supplied in the month

	<u>Commercial & Industrial</u>	
	Low Voltage	High Voltage
Basic Charge	80.1	79.5
FCA	30.2	30.2
Net Rate	110.3	109.7

For any period less than a month at the beginning or end of supply, the demand charge will be applied and calculated on a pro-rata daily basis. The total units will be charged as if consumed in one month.

“Month” means a period of approximately one month between one normal meter-reading and the next.

“Unit” means kilowatt hour.

“FCA” means Fuel Clause Adjustment.

Payment of any bill received after the due date will be subject to a surcharge of 5%.

Fuel Clause Adjustment (FCA)

A corresponding fuel clause adjustment will be made when the composite fuel price is above or below \$700 per 44 gigajoules.

Rate Reduction Reserve (RRR) Rebate

A Rate Reduction Reserve Rebate of 0.1 cents per unit will be provided to the customer to refund the interest on the Tariff Stabilisation Fund. The Rebate may cease any time when the Rate Reduction Reserve is depleted.

Effective Date: 1st January 2011

MAXIMUM DEMAND TARIFF

Tariff charges for the supply will, subject to payment in any month of the demand charge and the unit charge in respect of a minimum of 100 kVA of chargeable demand, be calculated as follows:

(a) Demand Charge (\$/kVA in the month)

	<u>Commercial & Industrial</u>	
	Low Voltage	High Voltage
For each of the first 400 kVA of maximum demand in the month	43.1	42.1
For each of the next additional kVA of maximum demand in the month	42.1	41.1

(b) Energy Charge (cents/unit)
(Monthly consumption)

For each of the first 200 units supplied per month per kVA of maximum demand (subject to a minimum of 100 kVA) in the month

	<u>Commercial & Industrial</u>	
	Low Voltage	High Voltage
Basic Charge	87.7	87.1
FCA	25.4	25.4
Net Rate	113.1	112.5

For each additional unit supplied in the month

	<u>Commercial & Industrial</u>	
	Low Voltage	High Voltage
Basic Charge	81.9	81.3
FCA	25.4	25.4
Net Rate	107.3	106.7

For any period less than a month at the beginning or end of supply, the demand charge will be applied and calculated on a pro-rata daily basis. The total units will be charged as if consumed in one month.

“Month” means a period of approximately one month between one normal meter-reading and the next.

“Unit” means kilowatt hour.

“FCA” means Fuel Clause Adjustment.

Payment of any bill received after the due date will be subject to a surcharge of 5%.

Fuel Clause Adjustment (FCA)

A corresponding fuel clause adjustment will be made when the composite fuel price is above or below \$700 per 44 gigajoules.

Rate Reduction Reserve (RRR) Rebate

A Rate Reduction Reserve Rebate of 0.1 cents per unit will be provided to the customer starting from 1st January 2010 to refund the interest on the Tariff Stabilisation Fund. The Rebate may cease any time when the Rate Reduction Reserve is depleted.

Effective Date: 1st January 2010

MAXIMUM DEMAND TARIFF

Tariff charges for the supply will, subject to payment in any month of the demand charge and the unit charge in respect of a minimum of 100 kVA of chargeable demand, be calculated as follows:

(a) Demand Charge (\$/kVA in the month)

	<u>Commercial & Industrial</u>	
	Low Voltage	High Voltage
For each of the first 400 kVA of maximum demand in the month	43.1	42.1
For each of the next additional kVA of maximum demand in the month	42.1	41.1

(b) Energy Charge (cents/unit)
(Monthly consumption)

For each of the first 200 units supplied per month per kVA of maximum demand (subject to a minimum of 100 kVA) in the month

	<u>Commercial & Industrial</u>	
	Low Voltage	High Voltage
Basic Charge	87.7	87.1
FCA	25.4	25.4
Net Rate	113.1	112.5

For each additional unit supplied in the month

	<u>Commercial & Industrial</u>	
	Low Voltage	High Voltage
Basic Charge	81.9	81.3
FCA	25.4	25.4
Net Rate	107.3	106.7

For any period less than a month at the beginning or end of supply, the demand charge will be applied and calculated on a pro-rata daily basis. The total units will be charged as if consumed in one month.

“Month” means a period of approximately one month between one normal meter-reading and the next.

“Unit” means kilowatt hour.

“FCA” means Fuel Clause Adjustment.

Payment of any bill received after the due date will be subject to a surcharge of 5%.

Fuel Clause Adjustment (FCA)

A corresponding fuel clause adjustment will be made when the composite fuel price is above or below \$700 per 44 gigajoules.
