ArchSD S/1	<i>Ficus microcarpa</i>	Former Pokfulam Transit Nursery, on the slope no. 11SW-C/R528	Architectural Services Department

**OVT No.:** AFCD/HT/024

**Location:** Wo Keng Shan, North District

**Species:** *Cinnamomum camphora*

**Size:** Diameter at breast height (DBH) – 2500mm; Height –22m; Spread –30m

**Special characteristics:** Large size; Outstanding form

**Highlights:** A native species of substantial size with a balanced form

Overview of OVT AFCD/HT/024

**OVT No.:** ArchSD CW/1

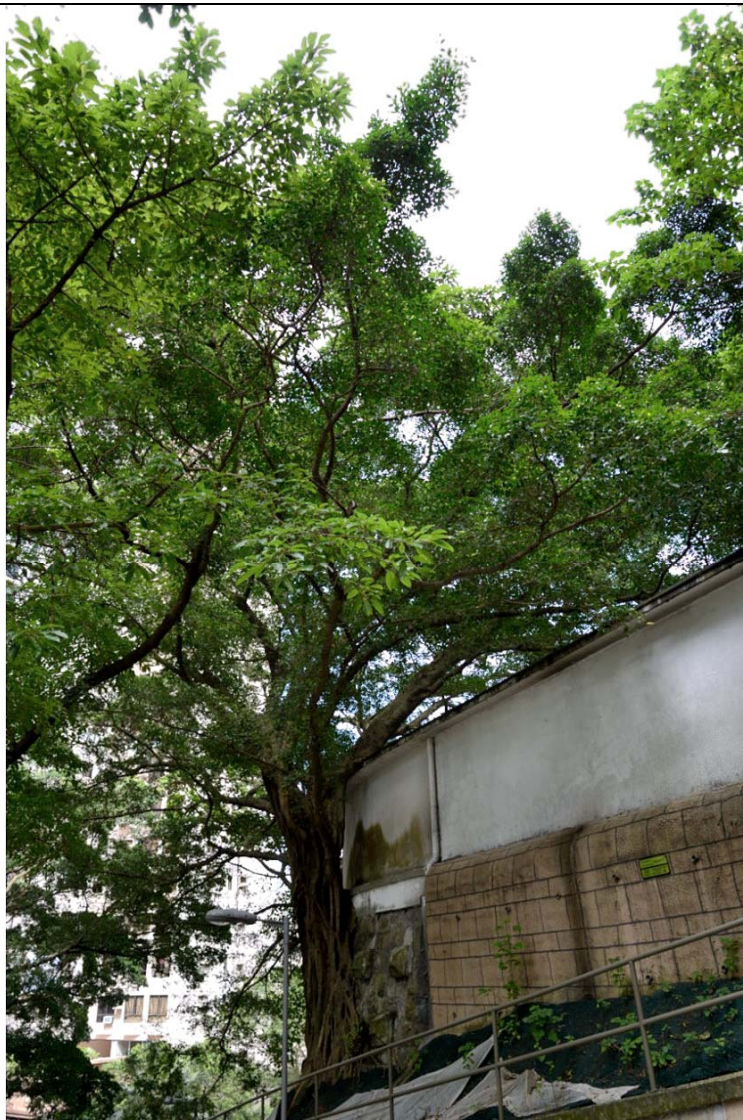

**Location:** Chater Hall, on the slope no. 11SW-A/R179 facing Hornsey Road

**Species:** *Ficus microcarpa*

**Size:** DBH – 1040mm; Height –10.2m; Spread –23.3m

**Special characteristics:** Large size

**Highlights:** A native species of substantial size, with a balanced and flourishing crown, established on a stone retaining wall as a unique landscape feature

Overview of OVT ArchSD CW/1

**OVT No.:** ArchSD CW/2

**Location:** Chater Hall, on the slope no. 11SW-A/R179 facing Hornsey Road

**Species:** *Ficus microcarpa*

**Size:** DBH – 850mm; Height –9.4m; Spread –28.8m

**Special characteristics:** Large size

**Highlights:** A native species of substantial size, with a balanced and flourishing crown, established on a stone retaining wall as a unique landscape feature

Overview of OVT ArchSD CW/2

**OVT No.:** ArchSD CW/3

**Location:** Chater Hall, on the slope no. 11SW-A/R225 facing Hornsey Road

**Species:** *Ficus virens*

**Size:** DBH – 1440mm; Height –14.5m; Spread –36.8m

**Special characteristics:** Large size

**Highlights:** A native species of substantial size, with a balanced and flourishing crown, established on a stone retaining wall as a unique landscape feature

Overview of OVT ArchSD CW/3

**OVT No.:** ArchSD CW/4

**Location:** Chater Hall, on the slope no. 11SW-A/R225 facing Hornsey Road

**Species:** *Ficus microcarpa*

**Size:** DBH – 840mm; Height –14.9m; Spread –25.4m

**Special characteristics:** Large size

**Highlights:** A native species of substantial size, with a balanced and flourishing crown, established on a stone retaining wall as a unique landscape feature

Overview of OVT ArchSD CW/4

**OVT No.:** ArchSD CW/5

**Location:** Blake Garden, on the slope no. 11SW-A/R16 facing Pound Lane

**Species:** *Ficus microcarpa*

**Size:** DBH – 830mm; Height –12.3m; Spread –16.5m

**Special characteristics:** Outstanding form

**Highlights:** A native species of substantial size, with a balanced and flourishing crown, established on a stone retaining wall as unique landscape feature

Overview of OVT ArchSD CW/5

**OVT No.:** ArchSD CW/6

**Location:** Hong Kong Zoological and Botanical Gardens, on the slope no. 11SW-B/FR241 facing Albany Road

**Species:** *Ficus microcarpa*

**Size:** DBH – 1500mm; Height –16m; Spread –17m

**Special characteristics:** Large size

**Highlights:** A native species of substantial size with a balanced and flourishing crown.

Overview of OVT ArchSD CW/6

**OVT No.:** ArchSD S/1

**Location:** Former Pokfulam Transit Nursery, on the slope no. 11SW-C/R528

**Species:** *Ficus microcarpa*

**Size:** DBH – 1030mm; Height –13.1m; Spread –17.3m

**Special characteristics:** Large size

**Highlights:** A native species of substantial size, with a balanced and flourishing crown, established on a stone retaining wall as a unique landscape feature
