

Proposed works of footbridge in Sham Shui Po

- (i) construction of a covered footbridge across Nam Cheong Street;
- (ii) construction of two associated lifts and staircases;
- (iii) permanent closure and conversion of parts of the existing planters into lift and staircase;
- (iv) temporary closure of sections of the existing footpaths and a section of the existing staircase; and
- (v) ancillary works including civil, geotechnical slope modification, drainage, sewerage, water connection and landscaping works.
