

Proposed works of footbridge in Central  
(between the existing Central to Mid-levels Escalator and Walkway System and  
the Central Police Station Compound)

- (i) construction of an open footbridge, located at the junction of Old Bailey Street and Hollywood Road, to connect the Central to Mid-levels Escalator and Walkway System to the Parade Ground of the Central Police Station Compound;
- (ii) widening of a section of the eastern footpath of Old Bailey Street;
- (iii) permanent closure and conversion of sections of the existing carriageway into footpaths and footbridge columns;
- (iv) permanent closure and conversion of a section of the existing footpath into footbridge column;
- (v) temporary closure and reconstruction of sections of the existing carriageways and footpaths;
- (vi) temporary closure and modification of a section of the existing Central to Mid-levels Escalator and Walkway System;
- (vii) construction of a temporary elevated working platform with headroom of not less than 4.7 metres at the junction of Old Bailey Street and Hollywood Road;
- (viii) provision of loading and unloading lay-bys at the eastern carriageway of Old Bailey Street;
- (ix) relocation of part of the existing parking spaces on the western carriageway of Old Bailey Street to the eastern carriageway of Old Bailey Street; and
- (x) ancillary works including the diversion of underground utilities, drainage and lighting works, and the erection of crash barriers and railings.
