# Except for fitness rooms, the average usage rate per week is calculated by dividing the total number of booked hours per week in 2013 by the total number of hours available for booking per week in 2013.

^ Except for fitness rooms, the average number of idle hours per week is calculated by dividing the total number of unbooked hours in 2013 by 52 weeks, and then by the number of facilities.

@ As the natural turf pitch of Sai Tso Wan Recreation Ground in Kwun Tong can be used for both baseball and football activities, no usage data on baseball activities can be provided.

Ω The quota for a fitness room is set on the basis of the room area and the quantity of fitness equipment provided. To avoid obtaining a usage rate of 100% when there is only one person using the room, the usage of fitness room is indicated by its number of person-times.

β The average number of idle hours for each fitness room for the week from 17 to 23 March 2014.
