Interesting side event with Dr Neville Smith from Australia during our ongoing Executive Council on the need to strengthen the Tropical Pacific ocean observing system and reverse the loss of buoys which are important for monitoring development of El Niño <http://goo.gl/jtd0a2>
19 Jun 2014 4:55 PM

The Tokyo Climate Center, which is one of WMO's regional climate centres, says global temperatures in May 2014 and during the (northern hemisphere) spring season were the highest on record, with Europe and Siberia being unusually warm. Details of this and extreme events at <http://ds.data.jma.go.jp/t...>
18 Jun 2014 11:22 PM

The management board of the Global Framework for Climate Services just met to discuss progress in rolling out services like seasonal predictions to improve water management, health outcomes, food security and disaster resilience <http://www.afcs-climate.org/>
