Notes: Figures in brackets represent percentage changes in 2013 compared with a year earlier.

Percentage changes are derived from unrounded figures.

Because of rounding, the sum of individual items may not be exactly equal to the corresponding total.

"N.A." denotes "not applicable".

"-" denotes "nil".

(1) Operating expenses do not include provision, gain/loss on disposal of fixed assets, bad debts, penalty, write-off, donations to charities, insurance excesses as well as depreciation, amortisation and taxation payments.

(2) Value of purchases of goods for sale has been adjusted for changes in stocks.

(3) Within the financing (except banking) industry, value added is not compiled for investment and holding companies owing to their special features of business operations. Hence, the figure of value added for this industry does not cover investment and holding companies.

In compiling gross surplus and value added of the banking and insurance activities, other data sources are required to supplement data collected through this survey and these statistics are compiled under the framework of Gross Domestic Product (GDP). Statistics on value added of the above activities compiled under the framework of GDP will be released in February 2015.
