Notes :

- (1) For sites rezoning of which have not yet been initiated, their development parameters (including estimated flat number and estimated year of land availability) are subject to changes, based on further technical and other assessments, and the relevant procedures to be carried out. We will, as with the established practice, firm up the development parameters when we complete the requisite technical assessments and proceed with statutory plan amendment procedures.
- (2) No sites were identified for rezoning for residential use in two districts (Yau Tsim Mong and Wan Chai) out of the 18 districts.
- (3) For Central and Western district, the two identified sites are subject to land use review and their development parameters (including the flat number) will be further revised.
- (4) In early 2014, we informed the Legislative Council Panel on Development and subsequently District Council (DC) Chairmen and Vice-chairmen the overall picture of these potential residential sites, among which 23 are in Tai Po district. Since then, we have provided Tai Po DC specific details of 14 sites for rezoning for residential use initiated in 2014, and we plan to provide Tai Po DC information on the remaining sites shortly. The total site number and other development parameters are thus subject to changes. Besides, two sites, involving about 1 300 flats, were recommended to be reverted back to “Green Belt” zone after the Town Planning Board’s hearing of representations/comments related to the amendments to the Tai Po Outline Zoning Plan on 13 February 2015.

Source of Information: The information paper on “increasing land supply” submitted to the Legislative Council Panel on Development by the Development Bureau in early January this year (LegCo Paper No. CB(1)407/14-15(01)) and updated as at 13 February 2015
