Table 4: Expansion or Improvement Works at Control Points

Expansion or facilities improvement works in progress/to be conducted at control points	Expenditure involved/estimated expenditure	Details of the works
Improvement works at Lok Ma Chau Control Point	\$19 million	The first phase of the project, including expansion of the Passenger Terminal Building (south bound for arrival) for e-Channels, was completed in 2013, while the second phase, including expansion of the Passenger Terminal Building (north bound for departure) for increasing the number of e-Channels to 16, commenced in the second quarter of 2013 and was completed in the first quarter of 2015.
Construction of additional private car kiosks at Lok Ma Chau Control Point	\$18.14 million	<p>There is a plan for construction of additional “one-stop” private car kiosks, including one arrival kiosk and one departure kiosk.</p> <p>The works commenced in the second quarter of 2014 and is expected to be completed in the third quarter of 2015.</p>
Implementation of a new “Immigration Control System”	\$910 million	In early 2013, the Finance Committee of the Legislative Council granted funding approval for the implementation of a new

Expansion or facilities improvement works in progress/to be conducted at control points	Expenditure involved/estimated expenditure	Details of the works
		<p>Immigration Control System by the Immigration Department to cope with continuous passenger growth. Amongst others, the development of the new Immigration Control System will upgrade the existing e-Channels to multi-purpose e-Channels and introduce over 100 new multi-purpose e-Channels to enable flexible deployment of e-Channel services according to passenger traffic pattern. The new Immigration Control System will be launched in phases between early 2016 and early 2017.</p>
