Notes:

1. Programmes related to architecture, surveying, town planning and landscape are determined having regard to the academic programme categories (APCs) of the programmes as reported by the UGC-funded institutions. Landscape is under the APC of Architecture.
2. Since some UGC-funded programmes are mapped to more than one APC, student intake figures of these programmes are counted on a pro rata basis under the relevant APC. Therefore, the student numbers under some APCs are decimal figures. All decimal figures in the above table are rounded to the nearest whole number. '\*' denotes a figure less than 0.5. Due to rounding, figures may not add up to the corresponding totals.
3. To tie in with the implementation of the new academic structure, institutions admitted two cohorts of undergraduate students under the old and new academic structures in the 2012/13 academic year.
4. Figures of research postgraduate students refer to students funded by UGC within their normal study period.
5. Figures for the 2014/15 academic year are provisional figures.
