Notes:

1. Programmes related to architecture, surveying, town planning and landscape are determined having regard to the academic programme categories (APCs) of the programmes as reported by the UGC-funded institutions. Landscape is under the APC of Architecture.
2. Since some UGC-funded programmes are mapped to more than one APC, the number of graduates of these programmes are counted on a pro rata basis under the relevant APC. Therefore, the graduate numbers under some APCs are decimal figures. All decimal figures in the above table are rounded to the nearest whole number. '*' denotes a figure less than 0.5. Due to rounding, figures may not add up to the corresponding totals.
