

## Annex

### **Number of traffic accidents involving van-type light goods vehicles (LGVs) and number of casualties of rear seat passengers of van-type LGVs in the past five years**

Year	Number of traffic accidents	Number of casualties of rear seat passengers of van-type LGVs			
		Killed	Seriously injured	Slightly injured	Total
2010	1 652	0 (0)	9 (1)	123 (13)	132 (14)
2011	1 616	0 (0)	2 (0)	97 (10)	99 (10)
2012	1 620	0 (0)	7 (3)	120 (19)	127 (22)
2013	1 671	1 (1)	13 (2)	138 (16)	152 (19)
2014	1 673	0 (0)	16 (3)	100 (8)	116 (11)

#### Notes:

1. For traffic accidents involving casualties of rear seat passengers of van-type LGVs, the Police only record whether the victims concerned have worn seat belts, but not whether the rear seats of the van-type LGVs involved have been fitted with seat belts.
2. The figures in brackets indicate the number of victims who have not worn seat belts.
3. Traffic accidents may involve a wide range of contributory factors. The above figures do not necessarily imply any direct relationship between rear seat passengers of van-type LGVs not wearing seat belts and their casualties.
