

## LCQ 8 Table

Table 1

The numbers and percentages of the tickets sold through URBTIX among the admission tickets sold for the concerts given by local artistes or groups in Hong Kong Coliseum (HKC) in the past five years

| Date | Name of concert | Tickets sold through URBTIX |            |
|------|-----------------|-----------------------------|------------|
|      |                 | Quantity                    | Percentage |
|      |                 |                             |            |
|      |                 |                             |            |
|      |                 |                             |            |
|      |                 |                             |            |

Table 2

The overall figures for concerts given in the past five years by local artistes or groups in the HKC of which tickets were sold through URBTIX (Ticketing figures for individual concerts are not public information)

| Year    | Total Seating Capacities | Tickets available for open sale through URBTIX |                    |
|---------|--------------------------|--|--------------------|
|         |                          | Quantity                                       | Average Percentage |
| 2014-15 | 851 304                  | 402 246  | 47.3%              |
| 2013-14 | 1 002 250                | 455 569  | 45.5%              |
| 2012-13 | 977 256                  | 515 343  | 52.7%              |
| 2011-12 | 1 178 498                | 622 793  | 52.8%              |
| 2010-11 | 1 375 003                | 710 933  | 51.7%              |
