

Proposed footbridge connecting Tsuen Wan Plaza,  
Skyline Plaza and adjacent landscaping area

- (i) construction of a covered footbridge of approximately 66 metres long with associated lift and covered staircase across Yuen Tun Circuit and Hoi Shing Road;
- (ii) permanent closure and conversion of sections of the existing footpath at Hoi Shing Road into footbridge columns and lay-by;
- (iii) permanent closure and conversion of a section of the existing lay-by at Hoi Shing Road into footpath;
- (iv) permanent demolition and conversion of sections of the existing planter into lift in (i) and footpath;
- (v) temporary demolition and reconstruction of a section of the existing planter;
- (vi) temporary closure of a section of the existing landscaping area; and
- (vii) ancillary works including electrical and mechanical, landscaping, drainage, utility, and public lighting works.
