

**Test results of water samples taken from public rental housing estates completed before 2005**

The Housing Department (HD) and the Water Supplies Department (WSD) are conducting a representative screening for public rental housing (PRH) estates completed before 2005 in which the fresh water supply systems were installed by the Hong Kong Housing Authority, to determine whether the lead content in drinking water exceeds the World Health Organisation (WHO)'s provisional guideline value of not more than 10 micrograms per litre. In general, HD and WSD are taking water samples for testing by batches in accordance with the completion year of the PRH estates, starting with newly completed estates and working back to the older ones. Once a batch of water sample tests is completed, HD will immediately announce the testing results.

**(Results announced for 66 PRH estates involving 1482 water samples up to 28 October 2015)**

**Lead content in water samples complying with WHO's provisional guideline value**

Tsui Ping (South) Estate	Lee On Estate	Butterfly Estate	Choi Fai Estate	Sai Wan Estate	Choi Yuen Estate	Tin Yan Estate	Tsz Lok Estate	Oi Tung Estate
