1. The adult short courses are full time courses for persons aged 18 or above who are engaged in other industries and interested in joining the construction industry. There are many classes provided for the courses throughout the year. The course contents are relatively condensed in order to equip the trainees with specific operative, craft or technical skills in specific fields within a short time.
2. The year refers to an academic year, i.e. from September in the first year to August of the following year.
3. The Construction Industry Council has not compiled any statistics on the number of persons waiting for admission and their waiting time for the academic year of 2013/14 and before.
4. The number of persons waiting for admission and waiting time reflects the position as at August 31, 2015.

(ii) Basic Craft Courses Offered by the Construction Industry Council¹

- The courses refer to Craft Certificate and / or Diploma of Vocational Education (DVE) courses. DVE trainees who have completed the first year may choose to work in the relevant trade in the construction industry as apprentices while completing the programme through part-time day-release courses in three years under the Earn and Learn Pilot Scheme. DVE trainees who have obtained the Craft Certificate upon completion of one and a half to two years may choose to work in relevant trades in the construction industry. Trainees who have obtained the DVE may also join the construction industry.*
- The year refers to academic year, i.e. from September of the first year to August of the following year.*
- The actual number of intake may exceed the training places if necessary.*
- The relevant trades for courses on fire service are Fire Service Mechanical Fitter and Fire Service Electrical Fitter.*
- The relevant trades for courses on refrigeration / air-conditioning / ventilation are Refrigeration / Air-conditioning / Ventilation Mechanic (Air System) and Refrigeration / Air-conditioning / Ventilation Mechanic (Water System).*
- The relevant trades for courses on lifts / escalators are Escalator Mechanic and Lift Mechanic.*
- The relevant trade for courses on welding is General Welder.*
- Craft Certificate in Plumbing and Pipefitting is a three-year part-time day-release course.*
