Note :

1. The parking fees are quoted from a survey report conducted by the Transport Department's consultant in end-2015. Car park operators may adjust the parking fees in accordance with the tenancy terms on their own.
2. "-" denotes that parking spaces of certain fee / vehicle type are not available in that district.
3. Utilisation rate of STT car parks refers to the average night-time utilisation rate. STT car parks mainly provide parking spaces for private cars and good vehicles. As most of the goods vehicles are parked at night, the peak hours are usually recorded during night time.
4. There is no STT car park in Wan Chai.
