

LCQ15

Annex 3

Medical laboratory service workload data in Hospital Authority

in the past three years

	2013/14	2014/15	2015/16
Pathology workload data	263 150 000	280 130 000	289 880 000

Note:

The above workload data includes specimen types of different varieties and complexities. Moreover, the equipment used, technology and operation model are also different across different laboratory specialties. The workload of medical laboratory technologists in HA therefore cannot be assessed simply based on the workload data.
