

**Number of Obstetrics & Gynaecology and Paediatrics Patient Days by Residents  
in Sha Tin, Tai Po and North Districts in 2015-16**

Specialty	Hospital cluster which provided the service		Total
	<i>New Territories East Cluster</i>	<i>Other Hospital Authority (HA) clusters</i>	
Obstetrics & Gynaecology	40 317	6 028	46 345
Paediatrics	40 378	7 620	47 998

Notes:

1. In HA, patient days include inpatient patient days and day inpatient discharges and deaths.
2. In HA, day inpatients refer to those who are admitted into hospitals for non-emergency treatment and who are discharged within the same day. Inpatients are those who are admitted into the hospitals via Accident and Emergency Department or those who have stayed for more than one day. The number of patient days has included the relevant number of inpatients and day inpatients.
3. HA measures and monitors its service throughput by performance indicators such as number of patient days but not by patient headcount as the latter is unable to reflect in full the services (e.g. admission/attendances, discharges, transfers, etc. involving possibly multiple specialties, service units and hospitals) delivered to patients in their treatment journeys.
