

附件 香港天文台透過手機應用程式「我的天文台」發出的「局部地區大雨報告」
樣本

The screenshot shows a mobile application interface for weather alerts. At the top, there is a grey header with a blue back arrow on the left and the text '天氣提示' (Weather Alert) in the center. Below the header, on a dark background, there are two icons: a red warning triangle with a black exclamation mark, and a yellow lightning bolt icon with the Chinese characters '雷暴' (Thunderstorm) and the English word 'Thunderstorm' below it. The main text of the alert is in white and reads: '特別天氣提示' (Special Weather Alert), followed by '提示1' (Alert 1). The body of the alert states: '局部地區大雨報告：西貢區在上午2時30分的過去1小時錄得超過70毫米雨量，有可能出現嚴重水浸。' (Local heavy rain report: In the West Kowloon area, more than 70mm of rain was recorded in the past 1 hour ending at 2:30 AM, with the possibility of serious flooding). At the bottom, it says '2016年05月21日02時35分更新' (Updated on 21 May 2016 at 02:35 AM).
