

Annex

**Table 1: Numbers of case managers and cases handled under
Hospital Authority's Case Management Programme by hospital cluster**

Cluster	2014-15 ¹		2015-16 ¹		2016-17 ¹	
	No. of case managers	No. of cases handled ²	No. of case managers	No. of cases handled ²	No. of case managers	No. of cases handled ²
HKEC	22	1 400	24	1 300	25	1 400
HKWC	24	1 100	24	900	24	900
KCC³	22	1 000	23	1 000	21	1 000
KEC	35	1 200	34	1 300	34	1 100
KWC³	88	5 300	99	5 200	99	5 400
NTEC	48	2 400	55	2 300	53	1 900
NTWC	62	3 100	68	3 400	69	3 500
Total	301	15 600	327	15 400	325	15 300

HKEC = Hong Kong East Cluster
 HKWC = Hong Kong West Cluster
 KCC = Kowloon Central Cluster
 KEC = Kowloon East Cluster
 KWC = Kowloon West Cluster
 NTEC = New Territories East Cluster
 NTWC = New Territories West Cluster

Notes :

1. As at March 31 of the reporting year.
2. Figures are rounded to the nearest hundred. Individual figures may not add up to the total due to rounding.
3. Wong Tai Sin and Mong Kok areas have been re-delineated from KWC to KCC since December 1, 2016. The service units in the concerned communities have therefore been re-delineated from KWC to KCC to support the new KCC catchment districts with effect from the same date. As a transitional arrangement, reports on services/manpower statistics and financial information continued to be based on the previous clustering arrangement (i.e. concerned service units still under KWC) until March 31, 2017. Reports in accordance with the new clustering arrangement (i.e. concerned service units grouped under KCC) started from April 1, 2017.

Table 2: Respective number and percentage of psychiatric patients of Hospital Authority who were prescribed traditional or new generation oral antipsychotic drugs and traditional or new generation long-acting antipsychotic ampoules in the 2016-17 financial year

	Number of patients	Percentage of the total number of psychiatric patients²
Traditional oral antipsychotics drugs	41 088	17.1 %
New generation oral antipsychotic drugs¹	81 352	33.8%
Traditional long-acting antipsychotic ampoules	10 998	4.6%
New generation long-acting antipsychotic ampoules¹	1 737	0.7%

Notes:

1. Some psychiatric patients may be prescribed both antipsychotic drugs and long-acting ampoules concurrently.
2. Some psychiatric patients may be prescribed other drugs or ampoules, or may not be prescribed any medication at all.
