<sup>1</sup> In response to the Chief Executive's suggestion in the 2015 Policy Address, the Urban Renewal Authority converted some of the units in its Kai Tak Development into SSFs and 322 SSFs were sold upon the close of the sales period. The sale of SSFs in the Kai Tak Development was a one-off measure.

<sup>2</sup> Green Form Subsidised Home Ownership Pilot Scheme units.

## **Remarks**

1. On public housing, the Government briefs the Legislative Council Panel on Housing annually on the prevailing five-year public housing construction programme. HA also regularly updates the relevant figures on its website. The above figures are based on the latest projection as at March 2017 and are presented by District Council districts as requested. As projects in 2021-22 and beyond are mostly at their planning and design stages, which are subject to changes due to various factors and yet to be finalised, it is difficult to list out the detailed information and programme at this stage.
2. On private housing, the Rating and Valuation Department (RVD) publishes the above district-based figures (in calendar year) on a regular basis. We are only able to provide the actual / forecast completion figures of private domestic units from 2015 to 2018. The Government has not compiled annual statistics of forecast completion figures for private domestic units in 2019 and beyond. All the above figures exclude village houses.
3. The above public housing figures are compiled based on financial year, while the district-based private housing figures are based on calendar year released by RVD regularly. Therefore, it is not appropriate to derive ratios from the above two set of statistics.
