

**Main Job Content for Cleaning Up of Refuse Collection Points (RCPs)  
by Street Cleansing Services Contractors**

- (1) Sweep, litter-pick and remove all waste on the ground inside and surrounding the roadside RCPs and bin sites, and return the refuse bins or place them properly at the roadside RCPs and bin sites.
- (2) Scrub and wash the walls, ceiling, roof, floor, doors and fixtures of the RCPs and bin sites with water and thereafter wipe dry.
- (3) Keep the roadside RCPs and bin sites tidy and in order. The refuse bins shall be properly placed, covered and not overfilled.
- (4) Clear and remove waste from channels (open and covered), gullies and manholes inside and adjacent to the roadside RCPs and bin sites.
- (5) Scrub and wash all refuse bins with detergent, rinse with water and thereafter remove excess water.
- (6) Clean signs and notices of the RCPs.
- (7) Clean flower beds/flower pots, if any.
- (8) Clean light fittings, louvers and other areas, and fixtures/facilities of the roadside RCPs and bin sites.
