Others <sup>(4)</sup>	206	1.4%	216	1.4%	246	1.5%

Notes:

1. The employment information of graduates from full-time University Grants Committee (UGC)-funded programmes in a given year is collected through the Graduate Employment Survey which is conducted annually by the UGC-funded institutions with a time frame up to December of the same year. Graduates covered in the Graduate Employment Survey refer to the students graduated from the year in which the Survey was conducted. However, for first degree graduates of medical programmes, they refer to those students who graduated one year immediately before the survey year.
2. "Full-time employment" and "further studies" refer to full-employment and further studies in or outside Hong Kong.
3. "Underemployed" includes graduates who were available for full-time employment but were involuntarily working less than 35 hours a week; and those who were employed on a part-time or temporary basis.
4. "Others" include those local graduates who (a) did not seek employment for the time being, and (b) migrated elsewhere.
5. "-" denotes nil.
6. "0.0" denotes less than 0.5.
7. "@" denotes figures of small value suppressed to ensure confidentiality of data relating to individual person.
8. Figures may not add up to totals due to rounding.
