## Appendix

### Medal for Bravery (Bronze) (MBB)

#### Mr CHAN Siu-kei, Jason, MBS

Mr CHAN, an Air Crewman Officer III, displayed an act of gallantry in an off-shore search and rescue operation to save eight crew members of a stricken fishing vessel “11506” during the approach of Super Typhoon Hato on 22 August 2017. As the winchman of the rescue helicopter, he was lowered to the pitching and rolling deck with a tiny foothold to save the survivors under severe weather conditions and a hostile operating environment. Faced with the high risk of being hit by obstacles and thrown overboard, Mr CHAN disconnected himself from the hi-line to prepare all survivors for the rescue, fought against the waves and wind for over 40 minutes and successfully saved eight lives. He is awarded MBB in recognition of his display of great courage, professionalism and selflessness in a highly hazardous environment.

#### Mr TSANG Chi-ho, MBB

Mr TSANG, an Air Crewman Officer III, displayed an act of gallantry in an off-shore search and rescue operation to save 14 crew members of a broken and grounded cargo vessel “XIN KE 11” during the passage of Super Typhoon Hato on 23 August 2017. As the first winchman of the rescue helicopter, he was lowered to a tiny landing space on the heavily listed ship deck to save the distressed 14 survivors under severe weather conditions and a hostile operating environment. On a few occasions he was nearly hit by obstacles as the ship deck was rocked by high seas and strong wind. He fought against the waves and wind for around 30 minutes and successfully saved 14 lives. He is awarded MBB in recognition of his display of great courage, professionalism and selflessness in a highly hazardous environment.

## Appendix

### Captain WONG Yiu-hong, MBB

Captain WONG, a Senior Pilot, has displayed an act of gallantry in an off-shore search and rescue operation to save eight crew members of a stricken fishing vessel “11506” during the approach of Super Typhoon Hato on 22 August 2017. As the aircraft commander of the rescue helicopter, he showed great courage and excellent airmanship in flying into known thunderstorm activities and remaining on scene in severe weather conditions to carry out the rescue while ensuring the safety of his crew and the aircraft. He successfully led the entire crew to complete the mission and saved eight survivors. He is awarded MBB in recognition of his display of immense courage, professionalism and total commitment during the very difficult and risky operation.

### Mr FOK Wai-fung, GMSM

Mr FOK, a Senior Air Crewman Officer, displayed an act of gallantry in an off-shore search and rescue operation to save two survivors direct from rough sea during the passage of Super Typhoon Hato on 23 August 2017. As the first winchman of the rescue helicopter, he was lowered into the choppy sea covered with debris and diesel fuel for a direct winching rescue of two exhausted survivors who were struggling in heavy waves of up to five metres. Despite the severe weather conditions and a risking operating environment, it took a lot of courage to step out of the helicopter. Mr FOK had no hesitation to go down to the rough seas repeatedly, fighting against the waves and gale force winds for nearly 20 minutes and successfully saved two survivors. He is awarded MBB in recognition of his display of great courage, professionalism and selflessness in a highly hazardous environment.

## Appendix

### Mr LI Ngai

Mr LI, a Senior Station Officer, displayed an act of gallantry in the mountain rescue operation at Fei Ngo Shan on 27 August 2017 during the passage of Typhoon Pakhar. The incident occurred in a mountainous area without proper trail. The operation was full of challenges because of the dense bushes, steep and rocky cliffs, muddy slopes, loose pebbles, cascades of rainwater, as well as small-scale landslips. Mr LI led a team to rescue the two stranded hikers, and exercised utmost caution every step of the way to avert any unforeseeable danger that might threaten him or his team members proceeding behind him. He set up a rope system quickly to abseil down to the location of the two hikers and formulated an evacuation plan. Although he was hit by a rock in the process, he continued to supervise and coordinate the rescue operation to ensure its smooth implementation. Mr LI's contribution was instrumental to the success of the rescue operation. He is awarded MBB in recognition of his display of great courage, professionalism and leadership in a highly hazardous environment.

### Mr LEE Shek-hei, Brian

Mr LEE, a Fireman, displayed an act of gallantry during the rescue operation in a No. 1 Alarm Fire Incident at Yuen Yuen Hok Yuen on 10 September 2017, during which a female adult had fallen into a structure used for joss paper incineration. Tasked as the rescue team leader, Mr LEE was the first to dash into the ashes. He endured pain and high temperature of well over 600 degrees Celsius throughout the rescue operation with the sole objective of minimising the extent of injury sustained by the wounded and removing her from danger as quickly as possible. Mr LEE and his team members overcame the arduous environment inside the ash pool and completed the rescue in less than six minutes, while he sustained second-degree burns to both of his legs. Mr LEE is awarded MBB in recognition of his display of great courage, professionalism and selflessness in a highly hazardous environment.

## Appendix

### Mr LIU Kwai-hing

Mr LIU, an Air Crewman Officer III, displayed an act of gallantry in an off-shore search and rescue operation to save 11 survivors from a sinking cargo vessel “Hung Tai 176” during the passage of Typhoon Pakhar on 27 August 2017. As the first winchman of the rescue helicopter, he was lowered to a vessel which was 80% submerged. The remaining deck area where Mr LIU carried out the rescue operation was subject to the risk of sinking and could be engulfed by the rough seas anytime, apart from the risk of his being washed off from the slippery and inclined deck. Under severe weather conditions and a hostile operating environment, he fought against the waves and wind for around 25 minutes and successfully saved 11 lives. He is awarded MBB in recognition of his display of great courage, professionalism and selflessness in a highly hazardous environment.

### Mr CHOY Chak-man

Mr CHOY, an Air Crewman Officer III, displayed an act of gallantry in an off-shore search and rescue operation to save five survivors from a life raft adrift at sea during the passage of Super Typhoon Hato on 23 August 2017. As the second winchman of the rescue helicopter, he was lowered to the lift raft which was crowded, smelly and filled with diesel contaminated sea water. Under the appalling conditions where the life raft was pitching and rolling on battering waves like a washing machine, Mr CHOY fought against the waves and wind with determination and successfully saved five survivors. He is awarded MBB in recognition of his display of great courage, professionalism and selflessness in a highly hazardous environment.

## Appendix

### Mr Zachary Brian ROLFE

Mr ROLFE, a Probationary Constable of Northern Territory Police in Australia, displayed an act of gallantry during the rescue operation at Hugh River/Larapinta Drive causeway, Australia on 27 December 2016, during which a Hong Kong citizen was saved. At the material time, Central Australia had recorded record rainfalls and waterways, creeks and rivers were in heavy flood. A vehicle with two persons inside, one of whom is a Hong Kong citizen, was washed off the roadway and fell into the swirling water. Although both struggled to escape from the car, the Hong Kong citizen was ultimately washed seven kilometres away downstream while the other was washed to a small tree in the middle of the floodwaters. After saving the person washed to the small tree and despite the extreme weather and the remoteness of the location, Mr ROLFE, totally on his own and without any communication or life-saving equipment, searched the highly dangerous and turbulent floodwaters and surroundings for the Hong Kong citizen washed downstream. He placed his life at extreme risk when traversing about six kilometres of floodwater in harsh terrain while suffering cuts and lacerations from sharp rocks before reaching the Hong Kong citizen. He carried the Hong Kong citizen around his neck, successfully swam across the floodwaters to reach safety. Mr ROLFE is awarded MBB in recognition of the great courage, perseverance and selflessness he displayed in a life-threatening situation when voluntarily enduring the extreme risk and danger on his own in the course of saving the Hong Kong citizen.
