

General Remarks

1. The student intakes in Annex 1 cover all UGC-funded programmes with local students admitted through the non-JUPAS route, and are drawn from the UGC's Common Data Collection Format (CDCF) database with a common census date of 30 October of each year. The student intakes in Annex 2 are confined to the top 20 UGC-funded programmes with local students admitted through the non-JUPAS route, and such data are specifically compiled by the respective universities possibly using different census dates as compared with Annex 1. The numbers in Annex 1 and Annex 2 are hence not directly comparable.
2. The information in the Annex covers primarily major qualifications in which standardised grading schemes are adopted. Admission qualification refers to the highest relevant academic qualification possessed by a student on the basis of which a student's admission is decided.
3. 'Others' include SAT, National Joint College Entrance Examination of Mainland China and those qualifications not elsewhere classified, e.g. students who have either completed a full or a part of a bachelor's degree programme in local or overseas institutions, or situations where students are admitted with multiple qualifications being major consideration.
4. Making reference to the Universities and Colleges Admission Service (UCAS) of the United Kingdom, GCE score is the sum of the scores for 1 A-Level subject plus 1 A-Level subject (or 2 AS-Level subjects) with the best results. The subjects for calculation do not necessarily include those specified in the departmental entrance requirement. The score for each subject is allocated as follows:
A-Level : A* = 140; A = 120; B = 100; C = 80; D = 60; E = 40
AS-Level : A = 60; B = 50; C = 40; D = 30; E = 20
5. The highest total score available for the International Baccalaureate (IB) Diploma Programme is 45.
6. In respect of the numbers showing the Median and Lowest scores of qualifications held, “-” denotes that no student held the respective qualification; and “*” denotes that the number of students holding the respective qualification is so small (below 3) that the scores are not disclosed so as to protect the privacy of the students concerned.

**Top 20 First-Year-First-Degree Programmes with the Most Number of Local Students admitted through the
Non-JUPAS Route from 2013/14 to 2017/18 academic years - City University of Hong Kong (CityU)**

- The above list only includes programmes with local students admitted through the non-JUPAS route primarily based on non-local qualifications. In other words, if a particular programme had only, via the non-JUPAS route, admitted local students on the basis of their local sub-degree qualifications, and without admitting any local students based on non-local qualifications, such programmes are not included in the above list.
- In 2014/15 academic year, no student was admitted primarily based on the admission qualification of General Certificate of Education Advanced Level (GCE A Level) and International Baccalaureate (IB).

- The above list only includes programmes with local students admitted through the non-JUPAS route primarily based on non-local qualifications. In other words, if a particular programme had only, via the non-JUPAS route, admitted local students on the basis of their local sub-degree qualifications, and without admitting any local students based on non-local qualifications, such programmes are not included in the above list.

- For 2013/14, 2014/15 academic years and 2015/16, the HKUST admitted First-Year students mainly to the School-based programmes, namely Science, Engineering, Business and Management, and International Research Enrichment, whereas others, such as sub-degree graduates, were admitted to the major programmes. Depending on the qualifications held and the advanced standing received, students of the major programmes were admitted to First-Year or Senior-Year of the respective programmes. For this reason, less than 20 HKUST programmes had First-Year intakes in the 2013/14 and 2014/15 academic years.
- Since the 2016/17 academic year, more of the major programmes have directly admitted students to First-Year, e.g. business programmes (such as BBA Management), and inter-disciplinary programmes (such as BSc Environmental Management and Technology). In the 2016/17 academic year, HKUST made available 20 programme choices to First-Year applicants; 21 programmes were offered in the 2017/18 academic year; there were only four to six School-based programmes from the 2013/14 to 2015/16 academic years.

Top 20 First-Year-First-Degree Programmes with the Most Number of Local Students admitted through the Non-JUPAS Route from 2013/14 to 2017/18 academic years - The University of Hong Kong (HKU)
