<sup>1</sup> The Environmental Protection Department (EPD) and the Food and Environmental Hygiene Department cooperated to implement waste reduction and recycling measures in other designated Lunar New Year (LNY) Fairs, including recycling bamboo sticks, wooden pallets and unsold Chinese peach blossom trees. The contractor appointed by EPD would collect and store them, and redistribute resources with reusable value in the future. Besides, the Environmental Campaign Committee also supported four organisations to hold green LNY Fairs, where they shared recycling tips with members of the public, and redistributed materials with reusable value to organisations and persons in need. We did not collate statistics on the relevant wastes and recyclables of LNY years other than the one in Victoria Park, Causeway Bay.

Events organised by entities which are not government departments<sup>2</sup>

<b>Name of Event</b>	<b>Date of Event</b>	<b>Attendance (approximate number)</b>	<b>Organiser</b>
