Note 1: This includes drivers who use the PnR concessions and normal drivers (i.e. drivers who use the car parks without switching to MTR).

Note 2: The relationship between the number of users and “utilisation rate” cannot be ascertained because car parks which offer PnR concessions can also be used as ordinary car parks (i.e. drivers can use the car parks without switching to MTR) for better utilisation. There is no quota or time limit on each of these two types of usage.
