

## 「地球天氣」網頁 “Earth Weather” Webpage

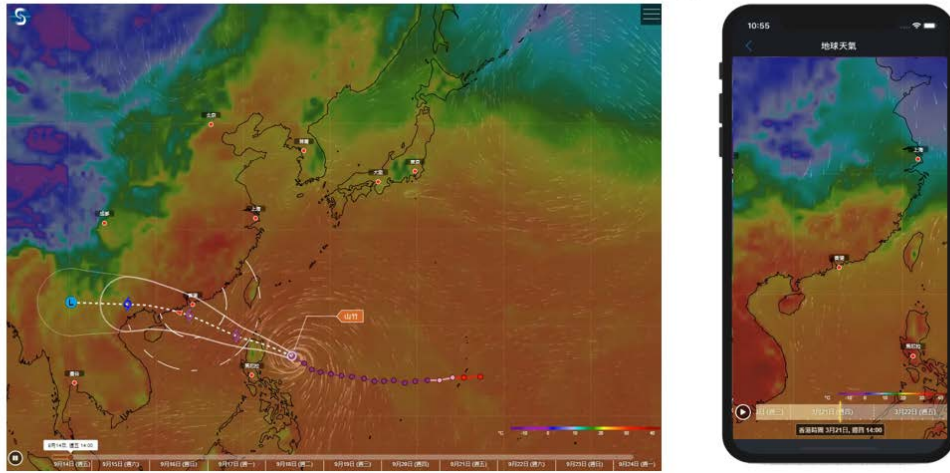

Figure 1 Photo shows the layout of the new interactive webpage “Earth Weather” launched by the Hong Kong Observatory on computer and mobile phone.

## 山竹風暴破壞互動地圖 Interactive Map of Storm Damages by Mangkhut

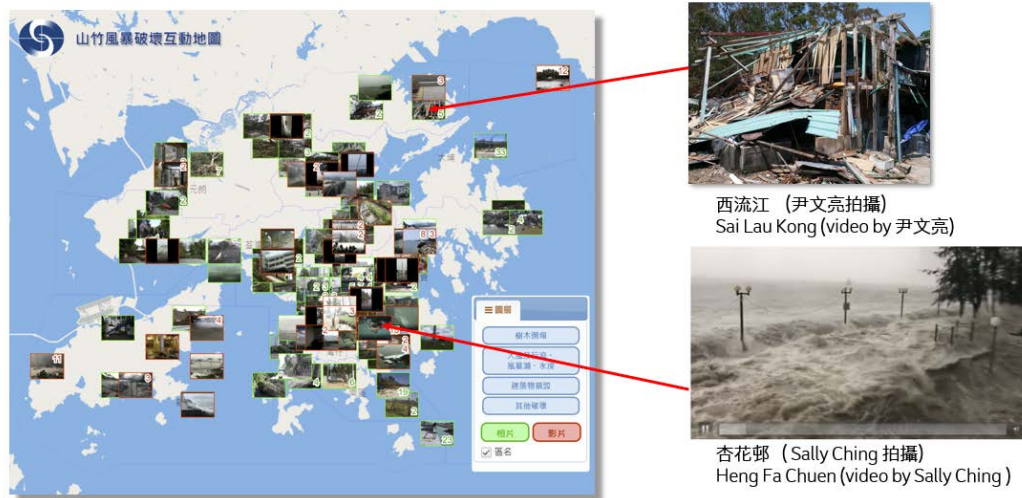

Figure 2 The Hong Kong Observatory collected photos and videos taken by the public during the passage of Super Typhoon Mangkhut last year through its Facebook page. Selected photos and videos have been put on the “Interactive Map of Storm Damage by Mangkhut” webpage for research and educational use. Photo shows the layout of the website.
