<b>Total</b>	<b>35 544</b>	<b>681 588</b>	<b>42 030</b>	<b>4 456</b>	<b>763 618</b>

## Notes:

1. Private car parking spaces can be used by private cars, taxis as well as van-type light goods vehicles, light goods vehicles and light buses with such sizes that can be accommodated within the private car parking spaces.
2. Excluding van-type light goods vehicles that can be parked at private car parking spaces.
3. The total numbers of parking spaces include the parking spaces for motorcycles, private cars, light goods vehicles, medium goods vehicles, heavy goods vehicles, coaches and public non-franchised buses. The parking spaces for taxis, franchised buses, public light buses, private light buses, special purpose vehicles and government vehicles are excluded from the calculation because most of them should be parked at depots, bus stops within public transport termini as well as stands. As regards taxis, they generally operate on the road round the clock and their parking demand is mainly short duration stay.
