Note:

The financial information relating to the two years ended 31 December 2019 and 2018 respectively included in this press release of 2019 financial results does not constitute the HKMC's statutory annual consolidated financial statements for those years but is derived from those financial statements. Further information relating to those statutory financial statements required to be disclosed in accordance with section 436 of the Companies Ordinance is as follows:

The HKMC has delivered the consolidated financial statements for the year ended 31 December 2018 to the Registrar of Companies as required by the Companies Ordinance and will deliver the consolidated financial statements for the year ended 31 December 2019 in due course.

The HKMC's auditor has reported on the consolidated financial statements of the HKMC for both years. The auditor's reports are unqualified; do not include a reference to any matters to which the auditor draws attention by way of emphasis without qualifying its reports; and do not contain a statement under section 406(2), 407(2) or 407(3) of the Companies Ordinance.

Financial Review

Consolidated profit after tax of the HKMC for 2019 was HK\$317 million (2018: HK\$127 million). The increase in profitability was primarily attributable to the decrease in accounting loss as a result of the decrease in provisions for maintaining prudent statutory reserves based on actuarial assumptions for the annuity business along with lower business intake during the year and the increase in investment return on the placements with the Exchange Fund. Notwithstanding that, the increase in profit is partly offset by additional resources utilised for the HKMC's missions and certain policy initiatives of the HKSAR Government. Accordingly, return on equity increased to 2.1% (2018: 0.9%) while cost-to-income ratio decreased to 58.7% (2018: 86.0%). Despite the reported accounting loss of HKMC Annuity Limited (HKMCA), the wholly-owned subsidiary of the HKMC to operate the annuity business, the embedded value of the annuity business was about HK\$5.3 billion, which comprised HK\$4.5 billion of total equity and HK\$0.8 billion of present value of future profits. This indicated that the annuity business should be sustainable in the long term.

In 2019, net interest income was HK\$524 million (2018: HK\$536 million) and the net interest margin of the average interest-earning assets remained stable at 1.0% (2018: 1.1%).

New loans drawn down under the MIP edged up to HK\$33.3 billion in 2019 from HK\$32.5 billion in 2018. The risk-in-force borne for the MIP by HKMC Insurance Limited (HKMCI), a wholly-owned subsidiary of the HKMC operating general insurance business, was HK\$23.1 billion (2018: HK\$19.7 billion). Net mortgage insurance premiums earned, after income amortisation, commission expenses and provision was HK\$196 million (2018: HK\$222 million).

Other income was HK\$465 million (2018: HK\$250 million), mainly representing investment income of HK\$465 million (2018: HK\$185 million) from placements with the Exchange Fund, net gain of HK\$33 million (2018: net loss of

HK\$14 million) on investments at fair value through profit or loss, dividend income of HK\$20 million (2018: HK\$59 million) from investments, and exchange loss of HK\$38 million (2018: gain of HK\$12 million) arising primarily from US dollar exposures in cash and debt investments.

The HKMC continues to maintain stringent controls on operating expenses. Total operating expenses were HK\$480 million, HK\$68 million more than that of 2018. Amid the increase in resources devoted to support the HKMC's missions and certain policy initiatives, cost-to-income ratio was 58.7% (2018: 86.0%).

In accordance with the Guidelines on Capital Adequacy Ratio (CAR), the calculation of capital ratio follows the basis of consolidation for financial reporting with the exclusion of regulated subsidiaries which are subject to separate requirements on maintenance of adequate capital (i.e. the HKMCI and the HKMCA, as regulated by the Insurance Authority). Excluding the investment cost of these unconsolidated regulated subsidiaries, the CAR remained solid at 30.2% as at 31 December 2019 (31 December 2018: 26.8%), well above the minimum requirement of 8% stipulated by the Financial Secretary.

The solvency ratios of the HKMCI and the HKMCA as at 31 December 2019 were about 39 times and 22 times respectively, well above the respective 200% and 150% minimum regulatory requirements stipulated by the Insurance Authority.

Having considered the capital requirements for business development, the Board recommended no dividend be declared for 2019.
