

Proposed Footbridge across Queensway

- (i) construction of a covered footbridge with associated lift across Queensway and over part of Harcourt Garden connecting the Pacific Place and the existing footbridge system at Admiralty;
- (ii) permanent closure and conversion of sections of the existing footpaths into lift in (i) and structural supports of the proposed covered footbridge in (i);
- (iii) conversion of a section of the existing amenity area into the structural support of the proposed covered footbridge in (i);
- (iv) temporary closure and conversion of a section of the existing footpath into temporary structural support for construction of the proposed covered footbridge in (i) and temporary covered walkway;
- (v) temporary closure and reconstruction of sections of the existing footbridge, footpaths and central divider; and
- (vi) ancillary works including landscaping and utility works, as well as relocation of an existing pillar box.
