- 1 To more effectively meet the different needs of parents and encourage mutual assistance in the neighbourhood by building up support network at the district level, SWD has focused its resources on launching child care services that offer greater flexibility in the community. Thus, SWD has no plan to expand services in the mode of standalone CCCs.
- 2 Only the places for CCCs attached to kindergartens are included. The service places for the coming school year (ie September 2012) are not available at this stage.
- 3 The Administration plans to provide an additional 126 SCCC places in 2012-13. Since the additional places are at the preparatory stage (including conducting local consultation, application for change in land use, drawing up the configuration of the premises, etc), SWD cannot provide detailed information on the district distribution of such places at this stage.
- 4 Given the low utilisation rate of MHCCCs and that SWD has provided additional resources to regularise and extend NSCCP (a similar service but with greater flexibility) to all 18 districts, SWD has no plan to further expand the service of MHCCCs.
