## Notes:

1. These include US dollar assets for backing the Monetary Base, which amounted to HK\$1,210,506 million at the end of October 2012 and HK\$1,203,831 million at the end of September 2012.
2. These include lending collateralised by Exchange Fund paper under the Discount Window. There were no such advances at 31 October 2012 and 30 September 2012.
3. A component of the Monetary Base.
4. These include interest payable on Exchange Fund paper and accounts payable under Currency Board operations.
5. Commencing September 2002, ten dollar currency notes issued by the Government are included in this item.
6. In accordance with accounting principles generally accepted in Hong Kong, for the purpose of balance sheet presentation Exchange Fund Bills and Notes held as assets of the Exchange Fund are applied to offset the corresponding liabilities. Exchange Fund Bills and Notes thus extinguished amounted to HK\$2,000 million at the end of October 2012 (HK\$2,000 million at the end of September 2012). As a result, the Exchange Fund Bills and Notes on the Abridged Balance Sheet are smaller by this amount compared with those on the Currency Board Account.
7. In accordance with accounting principles generally accepted in Hong Kong, for the purpose of balance sheet presentation Certificates of Indebtedness and Government-issued currency notes and coins in circulation are stated at cost, which are the Hong Kong dollars equivalent of the US dollars required for their redemption at the exchange rate ruling at the balance sheet date. As a result, the figures for the Certificates of Indebtedness and Government-issued currency notes and coins in circulation are different from those shown in the Currency Board Account, which represent the Hong Kong dollar face value.

Revaluation gains/(losses) relating to investments	(1,446)
Increase/(decrease) in balance of the banking system (other than due to Discount Window Operations and interest payment/issuance of Exchange Fund paper)	14,361
Balance carried forward	<u><u>1,210,506</u></u>

3. Discount Window Operations:

- (i) Discount Window Operations involve Hong Kong dollar overnight advances made to banks by way of crediting their accounts maintained with the HKMA (which is part of the balance of the banking system) on discounting Exchange Fund Bills and Notes. In accordance with generally accepted accounting practice, the Exchange Fund Bills and Notes discounted with the HKMA are not accounted for as reductions in the liabilities of the HKMA but are regarded as securities held against the advances so made.
- (ii) For the purpose of this Account, the advances to banks secured on Exchange Fund Bills and Notes are shown as deductions in arriving at the Monetary Base. There were no such advances at 31 October 2012 and 30 September 2012.

4. Interest payments on Exchange Fund Bills and Notes:

- (i) Starting from 1 April 1999, interest payments on Exchange Fund Bills and Notes have been allowed to increase the amount of outstanding Exchange Fund paper.
- (ii) During October 2012, the nominal value of Exchange Fund Bills and Notes decreased from HK\$684.51 billion to HK\$657.02 billion. If Exchange Fund Bills and Notes issued but not yet settled at end-September were excluded, the nominal value of Exchange Fund Bills and Notes would have increased by HK\$0.17 billion. Exchange Fund Bills and Notes issued include Exchange Fund Bills and Notes held as assets of the Exchange Fund.

5. In accordance with the accounting policies adopted by the Exchange Fund, Exchange Fund Bills and Notes issued on tender date but not yet settled are included in "Exchange Fund Bills and Notes issued". For the purpose of this Account, the corresponding accounts receivable are shown as deductions in arriving at the Monetary Base. There were no such receivables at 31 October 2012 (HK\$27,641 million at 30 September 2012).

6. This represents the net amount of receivable and payable for unsettled transactions of investments and issuance/redemption of Certificates of Indebtedness.

7. Starting from June 2001, Hong Kong dollar interest rate swaps have been used as a means to manage the cost of issuing Exchange Fund Notes. For the purpose of this Account, interest payable/(receivable) and revaluation losses/(gains) on these interest rate swaps are shown as a component of the Monetary Base and are included in "Net accounts (receivable)/payable". At 31 October 2012, there were interest receivable and revaluation gains amounting to HK\$65 million (HK\$30 million at 30 September 2012) and HK\$1,668 million (HK\$1,747 million at 30 September 2012) respectively.

8. It should be noted that the whole of the Exchange Fund assets, not just the Backing Assets, are available for the purpose of defending the linked exchange rate.
