

Number of Live Births Born in Hong Kong to Mainland Women

Year	Number of live births ⁽¹⁾	Of which number of live births born in Hong Kong to Mainland women:			
		Whose spouses are Hong Kong Permanent Residents	Whose spouses are not Hong Kong Permanent Residents ⁽²⁾	Others ⁽³⁾	Sub-total
2001	48 219	7 190	620	–	7 810
2002	48 209	7 256	1 250	–	8 506
2003	46 965	7 962	2 070	96	10 128
2004	49 796	8 896	4 102	211	13 209
2005	57 098	9 879	9 273	386	19 538
2006	65 626	9 438	16 044	650	26 132
2007	70 875	7 989	18 816	769	27 574
2008	78 822	7 228	25 269	1 068	33 565
2009	82 095	6 213	29 766	1 274	37 253
2010	88 584	6 169	32 653	1 826	40 648
2011	95 451	6 110	35 736	2 136	43 982
2012 (Jan-Nov)	84 629 [#]	4 252	25 174	1 695	31 121

- Notes :
- (1) The figures refer to the total number of live births born in Hong Kong in the reference period counted by the occurrence time of the events (i.e. births actually taking place in that reference period).
 - (2) Include Hong Kong Non-permanent Residents (Persons from the Mainland having resided in Hong Kong for less than 7 years being grouped in this category) and non-Hong Kong residents.
 - (3) Mainland mothers chose not to provide the father's residential status during birth registration.
 - Not available.
 - # Provisional figure.

LCQ1 Annex 2

Breakdown of new cases involving infants under one year of age who received the services of the Maternal and Child Health Centres under the Department of Health (DH) over the past six years and whose parents were non-eligible persons (NEPs)

Year	Number of new cases (under 1 year of age)	
	Total	Both parents were NEPs (Percentage)
2007	58 900	10 400 (17.7%)
2008	62 300	12 100 (19.4%)
2009	62 300	12 600 (20.2%)
2010	66 700	14 400 (21.6%)
2011	72 200	16 600 (23.0%)
2012	73 400	11 600 (15.8%)

- Notes :
- (1) The above figures are rounded to the nearest hundred and do not include the number of new cases involving infants who were one year old or above, which accounts for around 6% of the total number of new cases each year.
 - (2) DH does not have the statistical figures on the number of new cases involving infants whose both parents were NEPs before 2007.
 - (3) An infant may receive different types of services, such as “health and developmental surveillance” and “immunisation” services, in the same consultation session. DH does not have a breakdown of the statistical figures by type of services.
