

Proposed Lift and Pedestrian Walkway System at Waterloo Hill

- (i) construction of two lifts at Waterloo Road;
- (ii) construction of a pedestrian walkway (elevated) linking the above lift system and Man Fuk Road Garden;
- (iii) permanent closure and conversion of a section of the existing footpath into pedestrian walkway (elevated);
- (iv) permanent closure and conversion of sections of the existing amenity areas into lifts and footpaths; and
- (v) ancillary works including demolition of an existing shelter as well as drainage, utilities, landscaping and public lighting works.
