* The label of such product has not listed bear gall bladder as its active ingredient. According to the Chinese Medicines Regulation (Cap. 549F) (the Regulation), if the pCm is composed of 3 or more kinds of active ingredients, the names of more than half of the total number of kinds of active ingredients must be listed. However, the Regulation does not specify the kinds of active ingredients which must be listed.

According to the Regulation, the particulars on the labels, including the active ingredients, are required to be set out at least in Chinese only.
