

Test Results of Water Samples Taken from Kindergartens and Schools

The Government is now taking drinking water samples by batches from kindergartens as well as public sector and direct subsidy scheme primary and secondary schools built with government funding in 2005 or after to ascertain whether the lead content in the drinking water exceeds the Provisional Guideline Value (GV) at 10µg/L recommended in World Health Organization (WHO)'s Guidelines for Drinking-water Quality. Priority is given to kindergartens providing whole day or long whole day service, special schools and primary schools.

(Results released up to 22.10.2015, involving 414 kindergartens and 28 schools)
