

Table 1:  
Characteristics of the land-based non-institutional population aged 15-64, 2013 <sup>Note 1</sup>

	Unemployed persons		Economically inactive persons		Underemployed persons	
	No. of persons	Percentage (%)	No. of persons	Percentage (%)	No. of persons	Percentage (%)
<b>Land-based non-institutional population aged 15-64</b>	<b>129 700</b>	<b>100.0</b>	<b>1 561 900</b>	<b>100.0</b>	<b>57 500</b>	<b>100.0</b>
By Age:						
15-19	6 500	5.0	357 700	22.9	1 300	2.2
20-29	41 700	32.1	220 100	14.1	10 400	18.2
30-39	22 400	17.3	159 000	10.2	8 200	14.3
40-49	27 800	21.4	206 300	13.2	14 100	24.6
50-59	26 700	20.6	352 800	22.6	18 500	32.1
60-64	4 600	3.6	266 000	17.0	4 900	8.6
By educational attainment of post-secondary education:						
Non-degree	14 300	34.3	124 000	31.9	2 600	38.0
Degree	27 400	65.7	265 200	68.1	4 200	62.0
By age for persons with post-secondary education (non-degree):						
15-19	400	2.9	35 300	28.4	Not Applicable Note 2	Not Applicable Note 2
20-29	8 200	57.2	47 800	38.5	1 700	66.1
30-39	2 000	13.8	8 300	6.7	300	11.8
40-49	2 400	16.9	10 800	8.7	Not Applicable Note 2	Not Applicable Note 2
50-59	1 100	7.4	11 800	9.5	300	10.4
60-64	Not Applicable Note 2	Not Applicable Note 2	10 100	8.1	Not Applicable Note 2	Not Applicable Note 2
By age for persons with post-secondary education (degree):						
15-19	300	0.9	42 600	16.1	Not Applicable Note 2	Not Applicable Note 2
20-29	14 500	52.9	124 000	46.8	2 300	53.9
30-39	5 300	19.2	33 100	12.5	800	19.4
40-49	4 600	16.9	25 100	9.5	800	18.5
50-59	2 500	9.1	23 900	9.0	Not Applicable Note 2	Not Applicable Note 2
60-64	Not Applicable Note 2	Not Applicable Note 2	16 400	6.2	Not Applicable Note 2	Not Applicable Note 2

<sup>Note 1</sup> There may be a slight discrepancy between the sum of individual items and the total as shown in the above table owing to rounding.

<sup>Note 2</sup> Estimates equal to or less than 250 (including zero figures) and related statistics derived based on such estimates (e.g. percentages) are not released due to very large sampling errors.

Table 2:  
Characteristics of persons with disabilities <sup>Note 1</sup> aged 15-64, 2013

	Unemployed persons		Economically inactive persons	
	No. of persons	Percentage (%)	No. of persons	Percentage (%)
<b>Persons aged 15-64 with disabilities</b> <sup>Note 2</sup>	<b>4 800</b>	<b>100.0</b>	<b>126 400</b>	<b>100.0</b>
By Age:				
15-19	Not Applicable <sup>Note 3</sup>	Not Applicable <sup>Note 3</sup>	6 300	5.0
20-29	1 100	22.5	7 100	5.6
30-39	1 200	24.5	9 600	7.6
40-49	800	17.7	20 200	16.0
50-59	1 300	26.3	45 200	35.8
60-64	400	9.0	38 000	30.0
By educational attainment of post-secondary education:				
Non-degree	700	56.2	4 400	44.3
Degree	600	43.8	5 600	55.7
By age for persons with post-secondary education (non-degree):				
15-19	Not Applicable <sup>Note 3</sup>	Not Applicable <sup>Note 3</sup>	500	11.5
20-29	500	64.7	700	16.7
30-39	Not Applicable <sup>Note 3</sup>	Not Applicable <sup>Note 3</sup>	500	10.7
40-49	Not Applicable <sup>Note 3</sup>	Not Applicable <sup>Note 3</sup>	800	18.0
50-59	Not Applicable <sup>Note 3</sup>	Not Applicable <sup>Note 3</sup>	900	21.3
60-64	Not Applicable <sup>Note 3</sup>	Not Applicable <sup>Note 3</sup>	1 000	21.8
By age for persons with post-secondary education (degree):				
15-19	Not Applicable <sup>Note 3</sup>	Not Applicable <sup>Note 3</sup>	400	7.1
20-29	Not Applicable <sup>Note 3</sup>	Not Applicable <sup>Note 3</sup>	900	16.0
30-39	300	56.8	700	12.9
40-49	Not Applicable <sup>Note 3</sup>	Not Applicable <sup>Note 3</sup>	1 000	17.4
50-59	Not Applicable <sup>Note 3</sup>	Not Applicable <sup>Note 3</sup>	2 000	35.6
60-64	Not Applicable <sup>Note 3</sup>	Not Applicable <sup>Note 3</sup>	600	10.9

Note 1 There was under-estimation in the number of persons with intellectual disability as derived from the survey findings. Hence, this group of persons was not included in compiling the above figures.

Note 2 The number of underemployed person with disabilities aged 15-64 is 1 300, number of persons aged 40-49 and 50-59 are 300 (21.4%) and 700 (56.1%) respectively. Estimates equal to or less than 250 (including zero figures) and related statistics derived based on such estimates (e.g. percentages) are not released due to very large sampling errors for the remaining age groups and breakdown by post-secondary education.

Note 3 Estimates equal to or less than 250 (including zero figures) and related statistics derived based on such estimates (e.g. percentages) are not released due to very large sampling errors.

Table 3:  
Characteristics of persons with seeing difficulty aged 15-64, 2013

	Economically inactive persons	
	No. of persons	Percentage (%)
<b>Persons with seeing difficulty aged 15-64</b> <small>Note 1</small>	<b>24 200</b>	<b>100.0</b>
By Age:		
15-19	1 000	4.3
20-29	1 100	4.7
30-39	400	1.5
40-49	2 400	9.9
50-59	7 900	32.5
60-64	11 400	47.1
By educational attainment of post-secondary education:		
Non-degree	600	42.0
Degree	900 <small>Note 2</small>	58.0

Note 1 The number of unemployed persons with seeing difficulty aged 15-64 is 800, 300(32.5%) of which aged 50-59. The number of underemployed persons with seeing difficulty aged 15-64 is 400. Estimates equal to or less than 250 (including zero figures) and related statistics derived based on such estimates (e.g. percentages) are not released due to very large sampling errors for statistics of persons with seeing difficulty with breakdown of unemployed and underemployed population by age.

Note 2 Among persons with seeing difficulty with post-secondary education (degree), the number of persons aged 20-29 and 50-59 are 400 (42.2%) and 300 (36.8%) respectively. Estimates equal to or less than 250 (including zero figures) and related statistics derived based on such estimates (e.g. percentages) are not released due to very large sampling errors for remaining age groups.
