

Table 1:
Employed persons aged 15-64 with post-secondary (non-degree) education by occupation and monthly employment earnings, 2013 ^{Note 1}

	Land-based non-institutional population		Persons with disabilities ^{Note 2}	
	No. of persons	Percentage (%)	No. of persons	Percentage (%)
Employed persons aged 15-64 with post-secondary (non-degree) education ^{Note 3}	328 300	100.0	5 400	100.0
By occupation:				
Managers and administrators, professionals and associate professionals	174 900	53.3	3 200	60.5
Clerical support workers	72 400	22.1	900	17.7
Service and sales workers	49 600	15.1	400	8.2
Craft and related workers	15 500	4.7	Not Applicable ^{Note 4}	Not Applicable ^{Note 4}
Plant and machine operators and assemblers	2 600	0.8	Not Applicable ^{Note 4}	Not Applicable ^{Note 4}
Elementary occupations	13 100	4.0	500	9.1
Others	Not Applicable ^{Note 4}	Not Applicable ^{Note 4}	Not Applicable ^{Note 4}	Not Applicable ^{Note 4}
By monthly employment earnings (HK\$):				
< 4,000	22 200	6.8	600	10.8
4,000-6,999	11 300	3.4	600	10.8
7,000-9,999	42 400	12.9	800	15.3
10,000-14,999	82 600	25.1	700	12.3
15,000-19,999	49 900	15.2	800	14.2
20,000+	119 900	36.5	2 000	36.5

^{Note 1} There may be a slight discrepancy between the sum of individual items and the total as shown in the above table owing to rounding.

^{Note 2} There was under-estimation in the number of persons with intellectual disability as derived from the survey findings. Hence, this group of persons was not included in compiling the above figures.

^{Note 3} For persons with seeing difficulty, the number of employed population aged 15-64 with post-secondary (non-degree) education is 1 400. The breakdown by occupation for being managers and administrators, professionals and associate professionals is 1 000 (72.0%). The breakdown by monthly employment earning (HK\$) exceeding 20,000 is 600 (47.0%). Estimates equal to or less than 250 (including zero figures) and related statistics derived based on such estimates (e.g. percentages) are not released due to very large sampling errors for the remaining occupation and monthly employment earnings groups.

^{Note 4} Estimates equal to or less than 250 (including zero figures) and related statistics derived based on such estimates (e.g. percentages) are not released due to very large sampling errors.

Table 2:
Employed persons aged 15-64 with post-secondary (degree) education by occupation and monthly employment earnings, 2013 ^{Note 1}

	Land-based non-institutional population		Persons with disabilities ^{Note 2}	
	No. of persons	Percentage (%)	No. of persons	Percentage (%)
Employed persons aged 15-64 with post-secondary (degree) education ^{Note 3}	982 900	100.0	8 700	100.0
By occupation:				
Managers and administrators, professionals and associate professionals	793 200	80.7	7 600	86.9
Clerical support workers	94 900	9.7	800	9.2
Service and sales workers	60 400	6.1	300	3.0
Craft and related workers	2 700	0.3	Not Applicable ^{Note 4}	Not Applicable ^{Note 4}
Plant and machine operators and assemblers	1 600	0.2	Not Applicable ^{Note 4}	Not Applicable ^{Note 4}
Elementary occupations	29 900	3.0	Not Applicable ^{Note 4}	Not Applicable ^{Note 4}
Others	Not Applicable ^{Note 4}	Not Applicable ^{Note 4}	Not Applicable ^{Note 4}	Not Applicable ^{Note 4}
By monthly employment earnings (HK\$):				
< 4,000	54 100	5.5	500	6.2
4,000-6,999	19 000	1.9	300	3.1
7,000-9,999	29 100	3.0	500	5.4
10,000-14,999	126 600	12.9	800	9.4
15,000-19,999	125 100	12.7	900	10.0
20,000+	628 900	64.0	5 800	66.0

Note 1 There may be a slight discrepancy between the sum of individual items and the total as shown in the above table owing to rounding.

Note 2 There was under-estimation in the number of persons with intellectual disability as derived from the survey findings. Hence, this group of persons was not included in compiling the above figures.

Note 3 For persons with seeing difficulty, the number of employed population aged 15-64 with post-secondary (degree) education is 1 800. The breakdown by occupation for being managers and administrators, professionals and associate professionals is 1 700 (92.7%). The breakdown by monthly employment earning (HK\$) between 15,000-19,999 and exceeding 20,000 are 300 (15.9%) and 1 400 (74.8%) respectively. Estimates equal to or less than 250 (including zero figures) and related statistics derived based on such estimates (e.g. percentages) are not released due to very large sampling errors for the remaining occupation and monthly employment earnings groups.

Note 4 Estimates equal to or less than 250 (including zero figures) and related statistics derived based on such estimates (e.g. percentages) are not released due to very large sampling errors.
