Notes:

1. The place of origin of non-local students is determined having regard to their nationality.
2. Research postgraduate (RPg) figures include only students funded by University Grants Committee (UGC) within normal study periods.
3. To tie in with the implementation of the new academic structure, UGC-funded universities admitted two cohorts of undergraduate students under the old and new academic structures in the 2012/13 academic year.
4. ^ Figures may not add up to the corresponding totals owing to rounding. If RPg students are financed by universities using both UGC and external funds, they will be counted towards different sources on a pro-rata basis, which leads to the possibility of having decimal places for the number of RPg students.
5. '-' denotes 'nil'.
