Note 1: Applications for in-situ redevelopment by schools do not involve allocation of school premises. They are not processed under the School Allocation Exercise.

Note 2: As the accounts of the school building project are being finalised, we are unable to provide the actual construction cost.

- Note 3: As the construction contract covered more than one school, and the schools share some facilities upon commissioning, we are unable to provide the individual approved project estimate for each of the school building projects.
- Note 4: The relevant construction cost was first approved in 2012-13, and was subsequently approved for increase in 2013-14 due to higher-than-expected tender prices and increase in price adjustment.

Information on schools undergoing reprovisioning or redevelopment

Note 1: Applications for in-situ redevelopment by schools do not involve allocation of school premises. They are not processed under the School Allocation Exercise.

Note 2: The Government in the past provided capital grant to the English Schools Foundation (ESF) at an amount equivalent to the cost of constructing a standard-design public sector school for the same student population. From 2016/17 school years onwards, the Government has been phasing out its annual recurrent subvention to ESF. The redevelopment of Island School is the last project in which the Government provided capital grant to ESF.

Note 3: The school building project is pending funding approval from the Finance Committee of the Legislative Council.
