Note: Figures are based on the survey on the number of students studying in kindergartens, primary and secondary schools in Hong Kong but residing in the Mainland conducted via schools in October 2020. Having regard to the COVID-19 epidemic situation and the epidemic prevention and control measures in Hong Kong and the Mainland, some CBS who have returned to Hong Kong are temporarily staying with their relatives or friends in Hong Kong to attend face-to-face classes in schools; while some CBS who used to stay in Hong Kong on school days have returned to the Mainland since the beginning of the 2020/21 school year in response to the development of the epidemic situation and the epidemic prevention and control measures of the two places, and sustained learning at home through various learning modes (including e-learning). As such, the figures collected do not represent the number of CBS travelling daily across the boundary for studying in Hong Kong.
